25X1

2. (C) At a recent meeting with your TCP senior representatives I announced my intention not to proceed beyond present contractual commitments with this NSA project until requirements and possible duplication of effort issues are resolved. In that regard, I have instructed that preparations be made to terminate NSA efforts at the next appropriate contract milestone. This milestone will occur in July 1983. Prior to then I would ask that you review your requirements and ongoing related development activities (including compartmented efforts) and provide relevant information to me through [redacted] Deputy Director for Special Studies.

3. (S) Should you validate that you have no requirements that could be satisfied by continuation of the present NSA effort, I intend to terminate the work in July 1983. In my capacity as the U. S. SIGINT System Manager I will insure, however, that all relevant development activity in this area is available for review and application by both NSA and potential using Services. I look forward to your responses to help me assure a coherent effort in the development of SIGINT payloads for remotely piloted vehicles.

LINCOLN D. FAURER
Lieutenant General, USAF
Director, NSA/Chief, CSS
